Dear Les:

This will confirm our telephone conversation on Wednesday with respect to the above-identified disclosures. We have assigned the priorities which are set forth in Bob Seligman's memorandum of September 28, 1977 and we will proceed to prepare applications based on the disclosures set forth in the memorandum.

I have assigned the disclosures to various attorneys and we expect to have applications ready in the near future. Some of the subject matter is already in draft form and some of the subject matter has been awaiting the Directors' decision with respect to priorities. We will attempt to combine cases, where appropriate, and will get back to you shortly to discuss our thoughts in that respect. We will also give consideration to the two disclosures which the Directors have indicated may require more work to determine whether or not the subject matter of these disclosures can be included in the applications presently contemplated or whether it should be handled in some other manner.

Sincerely,

Howard K. Kothe
